

Juggling a lot of environmental responsibilities these days?

Are you *really* keeping track of *all* the environmental regulatory changes that could impact your facility?

What if you didn't have to worry about keeping up to date on environmental regulatory changes?

What if a customized environmental regulatory update report, EnviroReview™, showed up in your inbox once a month? *Hmmm...*

What is EnviroReview™?

EnviroReview™ is a concise tabular summary of changes and events in state, local and/or Federal regulations based on the previous month's environmental activity. The purpose of EnviroReview™ is to identify changes in multimedia environmental regulations that specifically may have applicability to your company.

EnviroReview™ reports contain regulatory "actions," including but not limited to:

- √ Final Rules
- √ Amendments
- √ Notices and Announcements
- √ Proposed Rules
- √ Corrections
- √ Meetings

EnviroReview™ reports are organized by "media" (i.e., air, water, waste, or miscellaneous), and contain fields for the "citation," "action," "date," and "summary." A summary field provides a brief synopsis of the environmental activity as well as a hyperlink to the regulation/environmental event. The hyperlink allows the reader to gather more information on the environmental event at their discretion. Check out an example for yourself:

Citation	Date	Action	Summary
Air			
40 CFR Part 372 Toxic Release Inventory Form A Eligibility Revisions Implementing the 2009 Omnibus Appropriations Act	04/27/2009	Final Rule	U.S. EPA has amended the Toxic Release Inventory (TRI) reporting requirements under Section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA) and Section 6607 of the Pollution Prevention Act of 1990 (PPA) in terms of facility eligibility to submit a Form A Certification Statement in lieu of the more detailed Form R. These amendments remove the provisions of the 2006 TRI Burden Reduction Final Rule and restore the regulations in place prior to its implementation. The amendments have been made in accordance with the Omnibus Appropriations Act of 2009 which was enacted on March 11, 2009. The rule is effective immediately. More information can be found here .
40 CFR Part 60 New Source Performance Standards	04/28/2009	Final Rule	U.S. EPA has finalized amendments to 40 CFR Part 60, Subpart OOO (Standards of Performance for Nonmetallic Mineral Processing Plants (NMPPs)) that could affect crushing, screening, and conveying operations at brick and cement manufacturing facilities, fossil fuel

EnviroReview™ is a product of All4 Inc.

Did you say that EnviroReview™ is customized for my company?

Yes, it is! As environmental consultants, we know what environmental regulations affect your business. Your time is precious after all, so we only provide you with the content you need! ALL4 customizes each EnviroReview™ report to identify specific regulatory actions pertinent to your industry and facility. When you sign up for EnviroReview™ you'll be asked to complete an EnviroReview™ environmental applicability questionnaire about your specific environmental concerns. We are well versed with environmental regulations and we'll use the questionnaire to confirm and expand our understanding of your company's specific environmental concerns. Now, what are you going to do with all the extra time you'll have on your hands once you start receiving streamlined EnviroReview™ reports?

How do I receive EnviroReview™ ?

EnviroReview™ reports are emailed to our clients on a monthly basis as Adobe Acrobat files. Emails are received in the first week of the month and contain the reports for the prior month's environmental activity. ALL4 will work with you to develop an email distribution list. ALL4 will also set up a company specific web-based portal where archived EnviroReview™ reports are available for viewing.

Why EnviroReview™?

Over 500 environmental professionals rely on EnviroReview™ each month and represent over 30 states and local jurisdictions. Clients range from Fortune 500 companies to small manufacturing operations; span the U.S.; and cover many industries— from power generation, aerospace, and chemical manufacturing to medical devices, pharmaceutical, packaging, and consumer products. Here's what a few of our clients have to say about EnviroReview™:

"EnviroReview™ is concise and company specific, which saves us an enormous amount of time, while providing us with the information we need to operate our facilities."

"Thanks -- and again, we find your EnviroReview reports to be right on the mark and very helpful."

"We like EnviroReview™ and find it superior to any other regulatory tracking product because it is customized to our needs. Our environmental managers are able to quickly identify applicable requirements and start working on them without routing through a lot of unnecessary information."

How much does EnviroReview™ cost?

EnviroReview™ reports are based on a per jurisdiction (i.e., Federal, state or local) basis. We charge one price per jurisdiction, no matter how many subscribers you have! An annual EnviroReview™ subscription is \$999 per jurisdiction. Federal EnviroReview™ is provided on a complimentary basis if you subscribe to more than 10 jurisdictions. Discounted rates are available if you subscribe to more than 10 jurisdictions — contact us for details. To subscribe, give us a call, drop us an email, or use our [electronic sign-up form](#).
